Introductory

The present volume for 1955 is the 29th edition of Henderson's Directory of Brandon. The work embodies a complete epitome of the civic, commercial, social, and industrial interests and activities of the municipality. It is a modern Directory in all parts and includes all essential features which have proven so satisfactory to our patrons in previous issues; these have been retained and amplified and improvements have been added as suggested by experience in order to add to the value and usefulness of the Directory, thus fully meeting the requirements of patrons; the approbation and continued patronage accorded the work are constant incentives to better service.

The publication has had the benefit and advantage of the complete organization and resources of the publishers, and of the skill and experience of their corps of enumerators and compilers added to the courteous co-operation of citizens, in the production of the volume.

THE DEPARTMENT OF MISCELLANEOUS INFORMATION

THE DEPARTMENT OF MISCELLANEOUS INFORMATION starting on page 7 contains information about Civic History and Industry, as well as a complete list of Apartment and Business Blocks.

THE STREET AND AVENUE GUIDE

THE STREET AND AVENUE GUIDE starting on page 21 features the names of all streets and avenues arranged alphabetically and numerically, giving the location, number on the street, and showing the occupant.

The intersecting streets are shown in the order that they come.

△ Denotes that there is a Telephone in the house.

♦ Denotes that someone living in the house is the owner.

THE ALPHABETICAL DIRECTORY

THE ALPHABETICAL LIST OF NAMES of citizens, business firms and corporations starts on page 85.

THE CLASSIFIED BUSINESS DIRECTORY

THE CLASSIFIED BUSINESS DIRECTORY at the back of the book exhibits the various manufacturing, mercantile and professional names, compiled under headings appropriate to the class of industry or profession followed.

GREATER BRANDON POPULATION, in excess of 23,815

The Directory estimate of population is based on the actual number of individuals' names in the Alphabetical section of the Directory, with due allowance for children and for women whose names are not listed. The Brandon Directory covers considerable territory beyond, but tributary to the city limits, which is canvassed in order that the names of all people employed or who purchase in Brandon may be obtained.

ADVERTISING BRANDON

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country, the publishers have placed copies of this issue of the Directory in the directory libraries, where they are readily available for reference use by the public. There they serve as perpetual advertisements for business men the country over realize that the City Directory represents the community as it really is.

The publishers take this opportunity of thanking the citizens for valuable assistance rendered in the way of furnishing information concerning themselves, their friends and their business interests for this Directory, and also the public-spirited and progressive business and professional men for support given in the way of patronage.

Respectfully,

The Publishers,

HENDERSON DIRECTORIES LIMITED.

November, 1955

PUBLISHERS' NOTE

The information in this directory is gathered by an actual house to house canvass, and is compiled in a way to insure maximum accuracy.

The Publishers cannot and do not guarantee the correctness of all information furnished them nor the complete absence of errors and omissions, hence no responsibility for same can be or is assumed.

The Publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next Directory.

HENDERSON DIRECTORIES LIMITED,
PUBLISHERS.

City of Brandon

(Courtesy of Brandon Chamber of Commerce)

THE city was formed out of the county of Brandon by special act of the legislature in 1882. It has always been a city. After the arrival of the railway in 1883 its growth was extremely rapid. It took the name of the "Wheat City of the West." The reason is evident from the fact that the area surrounding Brandon, particularly to the south, north, and west, has been and is one of the greatest and most reliable grain growing areas in Western Canada. Following its development as a grain growing area the livestock industry was developed. For many years past Brandon has been a centre for purebred livestock in all its branches. Brandon breeders have been acclaimed in all the capital show-rings of this continent for their cattle, horses, sheep and swine.

Today Brandon has the provincial exhibition of Manitoba, Western Canada Trade Fair, and the Manitoba winter fair with fullest facilities for the showing and encouragement of livestock and other agricultural and allied activities. Exhibitors from many parts of Canada and the United States are constant exhibitors at Brandon in competition with the Manitoba breeders. Brandon livestock interests also exhibit their stock in many parts of the American continent and have achieved very considerable success as a reward for their efforts.

The Brandon Chamber of Commerce and the Junior Chamber of Commerce each have an active organization. Their offices are maintained at 232 10th St. for the purpose of their general activities and tourist bureau.

Brandon is the distribution centre of all western Manitoba and eastern Saskatchewan. It is the hub of all transportation facilities in western Manitoba. The main lines of the Canadian Pacific and the Canadian National Railways give splendid service. There is in addition bus transportation both east and west and north and south. Truck transportation also finds its centre in Brandon both for the importing and exporting of merchandise. The city has recently instituted a municipal airport and air service to various points is available and is a main line stop for T.C.A.

Brandon has taken advantage of natural industries where raw materials are readily available from the immediate district, and markets both for local consumption and for exporting are produced in quantity.

Brandon's future seems assured. Population in April of 1947 was 20,045, with over 23,815 counted in 1955. Town planning has been undertaken and the scheme is being prepared for the protection of present and future building properties and for orderly development of the city. Considerable areas with trackage, sewer

and water are available for developing heavy industry. Sites are also available for distributing and retail development. Favorable power rates are granted by the Manitoba Power Commission, a provincially owned and operated utility. Brandon's water supply is assured and is being improved by the end of the year. Pure soft water of a standard quality will be available to all parts of the city. Many permanent payrolls are assured, e.g., Canadian Pacific and Canadian National railroads, and employees of industries natural to the community. A large and prosperous farming community tributary to Brandon produces a variety of crops and other produce, thus assuring stability, and continued prosperity.

CITY OF BRANDON

Civic Administration

BRANDON CIVIC OFFICIALS

City Hall: Princess Ave. bet. 8th and 9th Sts.

Mayor—Dr. Stuart Schultz
City Clerk—A. J. M. Bell
Assistant City Clerk—Murray James

POLICE STATION

Princess and 7th Street

Chief—T. H. Collister

Staff Sergeant—M. T. MacLean

BRANDON FIRE DEPARTMENT

Headquarters: Princess Ave. cor 7th St.

Chief—George M. Bain

The department consists of thirty permanent firemen of two platoons.

The equipment consists of one auto hose and booster tank truck, one auto aerial truck one chief's auto car, and four combination auto pumpers and hose trucks.

There are 252 fire hydrants distributed throughout the city. The fire pressure from the waterworks pumping station is 140 pounds with a total pump capacity of 3½ million gallons in 24 hours. The electric fire alarm system has 52 boxes.

There is a 620,000-gallon elevated tank.

2 City ambulances kept and operated from Fire Hall.

BRANDON WAR MEMORIAL PUBLIC LIBRARY

1043 Rosser Ave.

On November 28th, 1944, the ratepayers of Brandon passed a by-law providing for an annual levy not exceeding one mill on the rateable real property of the city in support of a public library to be managed and operated by a committee of seven, consisting of the Mayor, Finance Chairman of the Council, and five resident electors appointed by the Council.

In a beautiful, centrally located building, a former bank premises given to the city by the Bank of Montreal, the Library was officially opened with suitable ceremony on September 5th, 1946.

All residents of the city may borrow books free of charge. Non-residents may have library cards on payment of an annual fee of \$3.00 per individual.

LIBRARY HOURS

Monday, 12 noon to 9 p.m.; Tuesday, 12 noon to 6 p.m.; Wednesday, closed; Thursday, 12 noon to 9 p.m.; Friday, 12 noon to 6 p.m.; Saturday, 10 a.m. to 6 p.m.

Librarian—M. D. Coleman

Secretary-Treasurer—A. E. Hepinstall

CITY WATERWORKS PUMPING STATION

Source of supply—taken from Assiniboine River: water flows by gravity through 38" pipe to wells located in pumping Station, taken from these wells by either one of two low life "Fairbanks Morse" pumps with 50 H.P. Westinghouse motors having 3,000,000 Imp. gals. capacity each. Water then pumped to Dorrcro Hydro-treater where it is softened by means of the Lime-Soda method of softening. Hydrotreater 40' in diameter, 26' deep, equipped with Dorrcro agitator, 3,000,000 Imp. Gals. capacity, water travels from there to recarbonation basin where it is treated with Carbon Dioxide produced in this plant by either of two methods from oil burners in either one of our boilers or from Carbon Dioxide machine made by E. W. Bacharch & Co. After carbonation water travels to gravity type filters, 750,000 Imp. Gals. capacity each, supplied by Roberts Filter Co. and equipped with Wheeler bottoms and Palmer agitators. From filters to clearwater well located in our plant of 160,000 Imp. Gals. capacity connected to an outside storage clearwater well of 400,000 Imp. Gals. capacity then from these clearwater wells water is pumped to distribution system by any one of 3,000,000 Imp. Gals. capacity high lift pumps. One Harland pump driven by 250 H.P. General Electric motor, one Fairbanks Morse pump driven by 225 H.P. Harland motor, one Fairbanks Morse pump driven by 250 H.P. English Electric motor. In addition to clearwater storage tanks located at plant we have one Horton 625,000 Imp. Gals. capacity elevated tank on distribution system equipped with cathode Rustop system for prevention of electrolysis. Two R. T. boilers, one 150 H.P., one 75 H.P., supplied with Bunker Cee oil burners furnish steam for heating of chemical mixing water and for heating purposes. Water softened to a standard to be not more than 125 ppm hardness.

PUBLIC WORKS AND IMPROVEMENTS

The city has 61 miles of water mains, 52 miles of sewer, 60 miles of granolithic sidewalks, 125 miles of graded streets and 29 miles of paved streets, 16½ miles of boulevards and 244 fire

hydrants. Permanent steel and concrete bridges are constructed over the river at 1st and 18th Sts. and over C.P.R. at 8th St.

Brandon latitude 49.51°; longitude 99.57°; elevation at City Hall 1,255 feet above mean sea level.

STREET LIGHTING SYSTEM

Standard lighting system with 8 five-light ornamental standards; 280 single lights; 710 ornamental single light-brackets.

Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY Every Time It is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the Directory of Your City.

This cost must be absorbed by the subscribers—be they one—or be they 1000.

If there were but **One Subscriber** to the City Directory—the **One Subscriber** would of necessity have to absorb **The Whole Cost**.

If there were **1000 Subscribers**—each one would have to absorb **1/1000 Part of the Whole Cost**.

From which it is obvious that the **Greater** the number of subscribers—the **Lesser** the cost to each.

Every time you loan your City Directory the **Less Necessity** there is for the **Borrower** to subscribe for the **Service**.

More Borrowers result in **Fewer Subscribers**, which means **Increased Cost**.

Henderson's BRANDON Street and Avenue Directory 1955

HENDERSON'S (1955) BRANDON

21

In the following list the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. The profession or business of individuals or firms is given only at their respective places of business; to find occupations of others refer to Alphabetical List of Names.

Where the odd and even numbers on an Avenue or Street are separated, the North Side (odd numbers) on Avenues will appear first and the East Side (odd numbers) will appear first on Streets.

The symbol ♦ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes nor responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The symbol Δ also following names denotes houses having telephones.

(This section includes some listings reading "Occupied" or "Vacant". In each case the Publishers tried diligently by various means to obtain the information for the occupants but were unsuccessful. First two personal calls were made by an enumerator, next, a post card was mailed and the telephone used when possible.)

Common Sense

About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT—by actual survey in Canadian cities—for each City Directory, an average of three and one-half consultations were made for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half daily consultations for each book for three hundred and five days, therefore—

$$1000 \times 3\frac{1}{2} \times 305 = \\ 1,067,500$$

**Consultations or
Circulation Consulted**
